

PROGRAM WITH PYTHON(4BCS104)

PROGRAM 1

#Proram for printing name

```
print("sandeep")
print("cmr university")
print("chagallatti")
print("main road baglur")
```

OUT PUT :

```
sandeep
cmr university
chagallatti
main road baglur
```

PROGRAM 2

#Program for addition

```
a=25
b=50
print("value of a")
print(a)print("value of b")
print(b)
c=a+b
print("value of c")
print(c)
```

OUT PUT:

```
value of a
25
value of b
50
value of c
75
```

PROGRAM 3:

#program for mathematical operations
